**ARIES (March 21-April 19):** All that glitters is not gold - and that goes for you, as well. Walk the high road and make sure that any potential love interest does so, as well. Then, let the good times roll.

**TAURUS (April 20-May 20):** Maintaining a slightly lower profile is warranted for the next few days. Somehow things just don't come out the way you mean. Beware: It will be easy to put the wrong foot forward.

**GEMINI (May 21-June 20):** Speak slowly, clearly and carefully. Misunderstandings could be easy to create and difficult to clear up. Don't let worry get the better of you - things look worse than they really are.

**CANCER (June 21-July 22):** Avoid any siren song that may call you to abandon the tried and true. As long as you stick to what you know works, today could be fairly lucky. Listen to your inner voice of experience.

**LEO (July 23-Aug. 22):** Your romantic nature is running strongly today and the birds are singing just for you. Cupid's arrow could strike you now if you are not already in love with your soul mate.

**VIRGO (Aug. 23-Sept. 22):** Hold a good thought and keep sweet words on your lips. Errors in judgment are still a possibility. Patience is one of your virtues so relax and let confusing stars pass.

**LIBRA (Sept. 23-Oct. 22):** Plan a break in routine today or tomorrow, as you may be bored with the same old-same old. Get some fresh air, but don't climb too far out onto a limb.

**SCORPIO (Oct. 23-Nov. 21):** Your charisma and confidence project a strong image. Be sensitive to the impact on less-secure souls and don't let yourself be excessively dominant or steamroll over others.

**SAGITTARIUS (Nov. 22-Dec. 21):** You have both star-power and sensitivity today. Watch for a tendency for emotional excess this morning and don't blow things out of proportion, as they will pass quickly.

**CAPRICORN (Dec. 22-Jan. 19):** Deliberately avoid creating bad blood of any kind now. It would be easy to fall into a dispute that you could later regret over nonessentials. Kindness will go a long way.

**AQUARIUS (Jan. 20-Feb. 18):** Ill-considered actions could come back to bite you again today. Continue to tread a careful course and you will have no regrets in the future.

**PISCES (Feb. 19-March 20):** You could easily feel caught between hammer and anvil for a few days more. Be patient, take no crucial action, and don't give any of it too much importance.

**IF JULY 13 IS YOUR BIRTHDAY:** You may need to spend some time disarming conflicting demands between business and family life in the year to come. As long as you strike the right balance, much progress is possible. Since you take it all to heart and really care, you will find the right solution. You should have high energy, and you may even feel as if you are getting younger rather than older. Burning the candle at both ends will still have the predictable result, though. Avoid being cranky or touchy next spring. Creative outlets could be very satisfying.
