

#### PLAYWRITING ELECTIVE – DOUG KABACK

Join a laboratory of young playwrights as we generate short plays from the page to the stage. We will explore the writing process individually and collaboratively. Your ideas will provide the content for your own play as you create an initial 5-7 page first draft and then develop several revisions. You will team up with a college student director and actors from the Improvisation elective to take your ten minute play an exciting rehearsal process that leads to two evening performances in the last week of the program at our 20<sup>th</sup> Annual Ten Minute Play Festival!
