Dec 9: What is the CSUN student experience like & what resources are available to help students succeed?

Jan 20: What you call it matters: The Opportunity Gaps at CSUN

Guiding Questions

Many of our students are first generation college students. Based on what we know about the experience of first generation college students in higher education, how can we better support them?

Many of our students are overburdened with jobs, financial and family responsibilities. How can we better serve those students?

How can we as an institution become more culturally competent in service of our diverse student population?

What motivates our students to succeed?
