FIVE-YEAR PLAN - COMPUTER ENGINEERING DEGREE   Pre Fall 2013

This is a suggested schedule for students who start with Math 102 and wish to complete their degree in 5 years. The number of units required in each semester can be reduced by moving some courses into summer school. Students are encouraged to meet regularly with an advisor.

*Start Math/Science electives if they include chemistry or Biology, otherwise start them in the fall of the sophomore year.

[1]Math/Science electives must be selected from the list on the next page.

[2]See "Engineering Major General Education Planning Form", and/or DPR.

[3]CompE Electives must be selected from the list on the next page. A 4-unit course indicates a lecture/lab course, while a 3 unit course is lecture only. Students are always recommended to take the lab for lecture/lab courses. See "Instructions for Filing Senior Program", available in the ECE Department Office.

**Upper Division writing exam should be completed before the beginning of the Spring Semester in the Junior Year.
