

# GSI Environmental

## MEASURE, ANALYZE, SOLVE

GSI Environmental, Inc. (GSI), is an environmental engineering and science consulting firm committed to measuring, analyzing, and solving complex environmental problems globally. Our work ranges from practical solutions for environmentally sound industrial operations and property development to toxicological analysis and management of chemical hazards, sustainable development of water and other natural resources, and protection of our rivers and estuaries. Our staff combines practical know-how with leading-edge research to deliver timely, innovative, and focused answers to your environmental challenges.

GSI has tackled environmental issues on nearly every continent and in over 40 nations around the globe. We can export environmental expertise worldwide through our diverse team of leading researchers and multinational scientists and engineers.

Our diverse team of engineers and scientists includes recognized leaders in environmental engineering, applied science, risk management, toxicology, regulatory affairs, modeling, and water resources. We are active in applied research on a broad range of environmental and natural resource issues, as well as training for professionals on our staff and throughout our industry on emerging challenges for protection of human health and the environment.

### Services Include:

- > Air
- > Aquatic Sciences
- > Audits/Compliance/Permitting
- > Due Diligence
- > Emerging Contaminants
- > Environmental Analytics
- > Groundwater
- > Litigation Support
- > Modeling
- > Research and Development
- > Site Investigation and Remediation
- > Storm Water
- > Sustainability
- > Toxicology
- > Water Resources
