

# NEW TECHNOLOGY SERVICES FOR FACULTY

CSUN provides technology tools, resources, and solutions to take your course to new heights and promote engagement, student success, accessibility, and more!

## PRONTO

Want to communicate and engage with students in real-time? Pronto provides a chat-like experience that allows for greater interaction.

[csun.edu/it/pronto](https://csun.edu/it/pronto)

## GOREACT

GoReact is for student-created videos to demonstrate skill acquisition. Assign and provide feedback on GoReact projects.

[csun.edu/it/goreact](https://csun.edu/it/goreact)

## CANVAS STUDIO

Canvas Studio allows faculty to embed interactivity into videos. Students then interact with the videos, take quizzes, and provide comments.

[csun.edu/it/canvas-studio](https://csun.edu/it/canvas-studio)

## PANOPTO

Panopto is a lecture capture service. Record materials beforehand or live. Post materials automatically to Canvas.

[csun.edu/it/panopto](https://csun.edu/it/panopto)

## OTTER.AI

Otter.ai is an extension to Zoom that allows for computer-generated transcripts for meetings and classes.

[csun.edu/it/otterai](https://csun.edu/it/otterai)

## HYPOTHESIS

Hypothes.is allows for collaborative annotation of documents such as web pages for maximum engagement.

[csun.edu/it/hypothesis](https://csun.edu/it/hypothesis)

## LABSTER

Labster provides lab simulations for Biology, Chemistry, and Physics, taking the physical lab to an online experience.

[csun.edu/it/labster](https://csun.edu/it/labster)

## EQUATIO

Equatio helps insert equations into Canvas. Equations are accessible to students needing accommodations.
