LINCS (Learning Inspired through Networking and Collaboration with Schools) is driven by a single mission for California State University, Northridge (CSUN): to build and sustain strong linkages between CSUN and local schools. Through networking and collaboration, our institutions share expertise, services and resources. We strive to build productive relationships that inspire learning throughout our community by: (1) establishing and maintaining an asset mapping system, (2) facilitating networking and visibility for school partnerships, and (3) strengthening and building potential new linkages.
