

Summer 2024 Bloomberg Open Lab Sessions

Bloomberg Market Concepts (BMC) is a 15-hour, self-paced e-learning course that provides an interactive introduction to the financial markets. BMC consists of 8 modules. To earn BMC certification, you must complete four required modules (i.e., Economics, Currencies, Fixed Income, Equities). It takes around 8 hours to complete the required modules to receive the certificate. Lab Assistants will be available to guide you through the basic commands required to navigate the system.

Students are expected to adhere to campus academic honesty policies in their work in the BMC certification. As such, students are expected to watch all required modules in their entirety and complete the quiz questions using class information and independent thinking. Searching for answers to quiz questions online is prohibited.

Located in **BB2228 – Finance Lab**
Tuesday, May 28th to Tuesday, July 9th
