IS 497B: Information Security and Assurance Reading Preparation Assignment Management of Information Security Chapter 2

Read Chapter 2, "Planning for Security," of the *Management of Information Security* textbook, pp. 35-67.

The following review questions will be used to lead class discussion. Note, while I feel that it is a good idea to write out the answers to these questions, please know that I will not be collecting them as homework.

- 1. What is planning? How does an organization determine if planning is necessary?
- 2. What are the three common levels of planning?
- 3. What is a values statement? What is a vision statement? What is a mission statement? Why are they important? What do they contain?
- 4. What is strategy?
- 5. What is InfoSec governance?
- 6. What are the five basic outcomes that should be achieved through InfoSec governance?
- 7. Describe top-down strategic planning. How does it differ from bottom-up strategic planning? Which is usually more effective in implementing security in a large, diverse organization?
- 8. How does the SecSDLC differ from the more general SDLC?
- 9. What is the primary objective of the SecSDLC?
- 10. What is a threat in the context of InfoSec? What are the 12 categories of threats presented in this chapter?
- 11. What is the difference between a threat and an attack?
- 12. How can a vulnerability be converted into an attack?
- 13. What questions might be asked to help identify and classify information assets? Which is the most important question to ask?
- 14. What name is given to the process of assigning a comparative risk rating to each specific information asset? What are the uses of such a rating?
- 15. What term is used to describe the provision of rules intended to protect the information assets of an organization?
- 16. What are the three categories of InfoSec controls? How is each used to reduce risk for the organization?
- 17. Go to http://gocsi.com. Search for the link offering a free copy of the latest CSI study. (You will need to register to get a copy of the report.) Bring your summary to class to discuss with your fellow students.
