## ***Sustainability and Partnerships: Reconnect, Recreate, Renew***

### **Sodexo “Seasoned” Student Affairs Professional’s Institute**

At this year’s institute we are encouraging all “seasoned” professionals to participate without regard to your position or number of years in the field. We welcome mid-level professionals to participate along with our more senior professionals in a pre-conference led by Dr. Dudley “Doug” Woodard, Professor of Higher Education at the University of Arizona. Doug is a past NASPA President, former Scott Goodnight Award winner for Outstanding Performance as dean, and the 2005, Robert Shaffer Award winner for Academic Excellence as a graduate faculty member.

This year’s participants will be exposed to two individual themes that fit nicely within the overall conference theme of *Sustainability and Partnerships: Reconnect, Recreate, Renew*. On Day One Doug will discuss the Faustine Tango: Real Organizational Change or Coercive Isomorphism? Is true organizational change occurring in Higher Education or are we being coerced by outside influences such as our dependency on external resources, and governmental legislation?

On Day Two, Dr. Woodard will share his unique perspective, and research findings regarding the globalization of Higher Education. What does the future of Higher Education look like? What types of changes are occurring in North and South America, Europe, and Australia? What does it mean to us here in the United States? Finally, there will be some discussion about how the two individual themes connect to the conference theme.

As always, this year’s Sodexo SSAO Institute will be a stimulating interactive exchange of ideas between Student Affairs professionals, which will offer the attendees rich ideas to bring back to their respective campuses. We are particularly fortunate to have Dr. Doug Woodard leading this year’s institute.

Registration fee - \$175.00/person (covers materials, reception, and breakfast)

Late registration fee - \$225.00/person (if space is available)

The Sodexo Institute will be limited to the first 30 registrants.
